Alex Turco presents **ONLY ONE**

A collection of unique pieces of Art and Design.

Each piece he makes is unforgettably unique!

Is a collection of paintings, sculptures and furnishing objects inspired by Nature
using precious and natural decorative elements
with advanced techniques that he has experimented
with in his years of activity.

Everything he works on is handcrafted,
using the epoxy resin
that has always distinguished his art form.

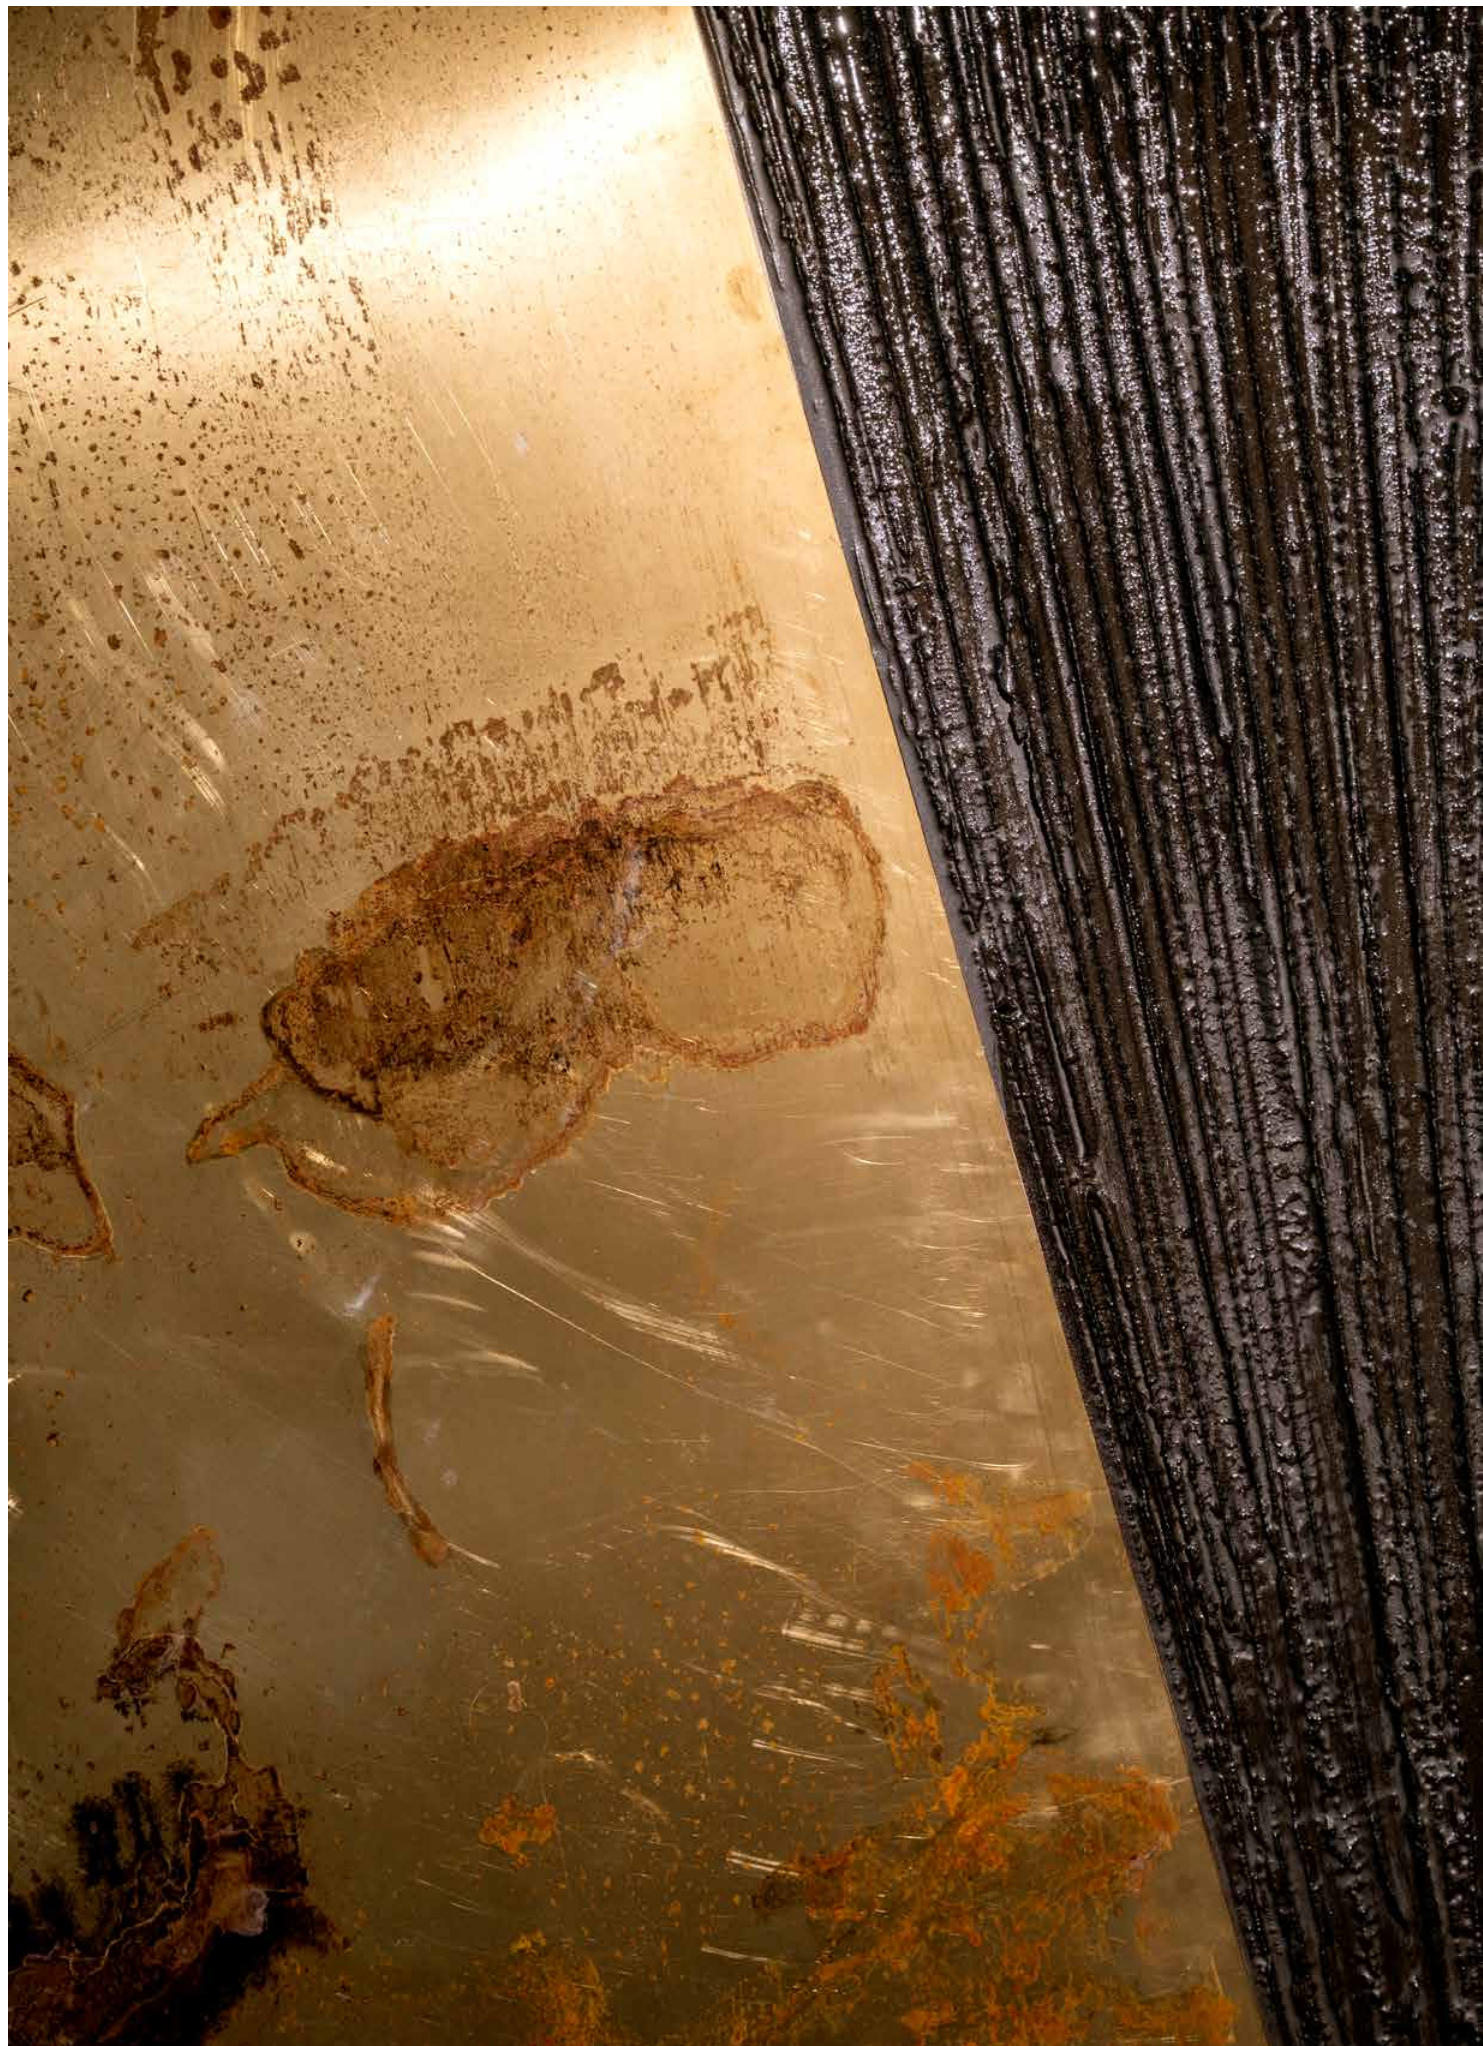

There is **ONLY ONE** in the world!
